VIA AIRBORNE**Re: Saad Site, Nashville, TN****Dear Ms. McCarty:**

This letter is written on behalf of TRW Inc. to the letter dated November 27, 1989 concerning the above site.

TRW has very little information concerning the EPA investigation of the Saad Site in Nashville or whether TRW arranged for the disposal of hazardous wastes at this site. Please provide information you may have concerning TRW disposal of hazardous wastes at this site as soon as possible.

TRW is willing to participate in negotiations to perform the activities described in the November 27, 1989 letter. TRW is willing to enter into such negotiations for settlement as part of a group of potentially responsible parties with regard to this site. We specifically request the names of all other potentially responsible parties at this site so that we may communicate with them concerning such negotiations.

We also specifically request a meeting with U.S. EPA to discuss existing data at the site and the activities to be performed at this site. Such meeting should include all potentially responsible parties at this site so that we would have an opportunity to discuss these activities with such other parties.

All such contact or correspondence in this matter should be directed to my attention at the following address.

Ms. Kelly McCarty
